

Babe Shadow

When the three songwriters Emma Elisabeth Harper aka Emma Elisabeth (SWE), Christian Kuehn aka Bled White (D) and Jonas Knopf (D) crossed paths in 2014 it was instantly evident that something special emerges when they make music together. With various musical projects they've spent the last years playing both national and international stages, touring Germany, Scandinavia, UK and the USA. Under the new moniker 'Babe Shadow', the three musicians lean back on their experiences and take their audience on a trip through music history of the past 60 years with a fine selection of songs by significant Classic American Songwriters, English Pop & Rock- and Country & Folk-artists.

The semi-acoustic sound - consisting of an acoustic guitar, an electric guitar and a piano - is given its own unique handwriting through instrumental arrangements by Harper, Kuehn & Knopf. And while they stay true to the style of the original songwriters and performers, a nod to the spirit of the time, they create their own interpretations of the songs. The very heart of the project, however, are the vocals: Three outstanding voices telling stories of grand emotions and life lessons, all while they brilliantly shine in intricate vocal harmony arrangements.

This way, you can feel the lightness in the guitar driven sound of Woodstock in the 60s, the groove and elegance of the 70s, the playfulness of the 80s and the coolness of the 90s in their set.
